## BORGOGNA

MC Lab

### DESCRIPTION

---

Evasion, relaxation and - why not - meditation: escaping from all possible stress sources is all we ask for at the end of the day as well as the correct mood that should precede sleep: this is why the design of Borgogna ideally incorporates the concept of insulation by transferring it to the leather island surrounding the bed. Making it elevated, it gives a lovely floating sensation. The idea of relaxation is also amplified thanks to its extraordinary soft lines - just like in its twin sofa.

### TECHNICAL INFORMATION

---

#### Typology

Bed

#### Headboard and bedframe
