DESCRIPTION

Charm, originality and a refined soul. The Garda collection - made up of console and day cabinet - is slender and original: the ribbed profile is its distinctive trait, as are the particularly slender legs that contrast with the larger, more welcoming container. A hypnotic motif the one of the Garda console that enhances the beauty of wood and the purity of its essence: an elegance that is easy to exalt with the choice of vintage colors for the container, to be combined with the legs in metal which are more modern.
