LUNGOTEVERE

MC Lab

DESCRIPTION

The Lungotevere collection gathers a series of design objects united by the same delicate and refined mood, given by shapes that recall the 60s and their unforgettable style. Consisting of chair, chair with armrests, armchair and sofa, its distinctive features are the particularly generous and enveloping sitting, the extraordinary comfort and the graceful and gentle lines. The armchair overcoat - the covering of its back part - is particularly original as it creates an interesting and 100% customizable material play.

TECHNICAL INFORMATION

Typology

chair / chair with armrest / armchair / sofa lounge
