## TRASTEVERE DESK

MC Lab

### DESCRIPTION

---

Pure geometry and material play at the service of design: Trastevere is a desk to fall in love with at first sight. Its legs in solid wood or ash, joining the body of the table, draw a characteristic double Y: a feature that becomes his signature in the set of its defining essential traits. The top can be made of glass, essence or leather. To enrich the combination of Trastevere shapes, it is also possible to provide an optional rotating drawer unit, so as to give the set completeness and a different nuance of elegance.
