VIA CONDOTTI

Arch. Maurizio Di Mauro

DESCRIPTION

Three times beautiful and vintage: a charming design, where the play of materials not only uses exceptional protagonists, but becomes the strong point of Via Condotti. Saddle, fabric and wood make this essential masterpiece of rationality that, elegant as the street it takes its name from, perfectly adapts to the most modern settings. Its legs are in Canaletto walnut or ash open-pore and the structure in metal saddle covered.

TECHNICAL INFORMATION

Typology

Armchair
