FABIAAN VAN SEVEREN / STUDIO SEGERS

## DESCRIPTION

With minimalism the genius is in the detail. The pure, clean lines of the Mirthe collection appear to flow into each other seamlessly. Table legs fold perfectly around the table top and chair backs are an elegant curve sweeping down into the legs. Nothing is hidden in Mirthe's vision. The designers opted purposefully for aluminium: robust, completely recyclable and ideal for outdoor use.

## MATERIALS

- Frame: powdercoated 6 mm plate aluminium

## CUSHIONS

Filling in dryfoam which has an open cell structure, so air can circulate freely. Water passes through the filling, but dries quickly thanks to the large open pores, substantially inhibiting fungal growth. Fabrics available in category D, E & F.

## COLOURS FRAME

00-White

## PROTECTION COVERS

For each item a cover is available that protects the furniture against dirt. These covers in grey colour are made of PU coated polyester which is water-repellent and UV-resistant. Thanks to their excellent breathable qualities the covers reduce condensation and heat build-up, helping to prevent the formation of mold and mildew. Always make sure that furniture, cushions and covers are completely dry before covering furniture.

## MAINTENANCE

Powdercoated aluminium is easy to clean with clear water and a pH-neutral fluid detergent. Stubborn stains can be removed with Aluminium Cleaner. If necessary, use a soft brush to remove the dirt from the pores. To protect the frame against the adhesion of dirt, Teflon® Protector can be used which applies an invisible protective film.
