

Hishi, 871/TBC
tavolino \ coffee table

La base in ceramica smaltata grigio sabbia e pesca, caratterizzata da un decoro a bassorilievo a maglia geometrica realizzato artigianalmente, che attraverso il deposito della cristallina crea ricercati effetti cromatici, contraddistingue la famiglia di tavolini Hishi. Proposti nelle due altezze, 47 cm e 55 cm, sono disponibili con piano tondo o quadrato in vetro bronzato.

The base in sand gray and peach ceramic, characterized by a handcrafted geometric-patterned bas-relief decoration, which through the deposit of the crystalline creates refined chromatic effects, distinguishes the Hishi coffee tables' family. Available in two heights, 47 cm and 55 cm, they are available with round or square top in bronzed glass.
