## SNAP

Disegnato da Francesco Rota, Snap è un imbottito a terra modulare per soluzioni fortemente personalizzate, da utilizzare in configurazioni lineari o angolari componendo chaise longue, pouf, sedute, terminali e centrali. Si distingue per le linee essenziali, le forme rigorose, gli incastrî geometrici, la spiccata eleganza e le proporzioni ultra contemporanee, che lo rendono luogo elettivo del comfort anche grazie allo schienale progettato esso stesso come un cuscino, con un'extra imbottitura in piuma.

La struttura può essere sollevata da terra con una piccola intercapedine o poggiare su quattro piedini in metallo cromato o brunito a forma di "L" della stessa larghezza del bracciolo: un dettaglio sofisticato che impreziosisce il disegno con una lama luminosa che spicca ancora di più nel contrasto con l'ombra che si crea tra base e pavimento.

Designed by Francesco Rota, Snap is a floor unit upholstered sofa, for strongly customized solutions, to be used in linear or corner composition, with a chaise longue, a pouf, seats, terminal and central units as well. The model stands out for its essential lines, its rigorous shapes, the geometrical matching, the unique elegance and ultra-modern proportions, making it the elective choice for comfort thanks to the back panel designed as a cushion, with an extra-feather upholstery.

The structure can be raised from the floor thanks to a space or it can be leaning on four chromed or burnished metal L-shaped feet, as wide as the arm: a detail making the unit design far more precious, a metal detail standing out with a contrast shade between the base unit and the floor.
