YARD DAYBED

Disegnato da Francesco Rota, il raffinato daybed Yard, proposto anche nella preziosa versione in pelle con base in metallo verniciato bronzo, riprende le caratteristiche estetiche dell'omonimo divano reinterpretando la creatività tipica del design industriale anni '60. La struttura, realizzata in metallo rivestito in tessuto, è un piano sorretto da piedi giuntati attraverso agganci a sezione triangolare che crea l'appoggio per il cuscino di seduta, appoggiato senza nasconderla, in un contrasto armonico che ne diventa caratteristica estetica fondamentale.

Designed by Francesco Rota, the elegant Yard daybed, also proposed in an elegant leather version with metal lacquered bronze, recall the aesthetic features of the same name sofa re-interpreting the typical creativity of the industrial design of the '60s. The structure, made in metal upholstered with fabric, is a top supported by feet joined through hooks of rectangular section that provides supports to the cushions and armrests, laid without hiding it, in a harmonious contrast that becomes its main aesthetic feature.
