

Anno di produzione: 2019

Nato dalla creatività di Alessandro Dubini, Koi è un divano contemporaneo ed elegante progettato all'insegna del comfort e della sobrietà. Alla struttura lineare e senza tempo abbina una seduta compatta e avvolgente. Di carattere il dettaglio dei piedini in metallo, che con la loro particolare forma a T sembrano "contenere" la struttura diventandone parte integrante. Il risultato è un perfetto esempio di equilibrio delle proporzioni e armonia: un arredo capace di trovare facilmente spazio sia nell'ambiente domestico che in quello commerciale.

**Caratteristiche tecniche:**

Il modello è disponibile rivestito in pelle o tessuto (sfoderabile solo per i cuscini di seduta e di schienale); la base è disponibile rivestita in tessuto o pelle. Il piede è verniciato con finitura champagne. Il tavolino è disponibile con piano in marmo Dover White.

La struttura portante è realizzata in legno massello di pioppo stagionato naturalmente, con alcuni elementi di collegamento in legno compensato di pioppo; le giunzioni dei vari elementi della struttura sono costruite mediante unioni ad incastro con spine cilindriche. Il molleggio della seduta è composto da cinghie elastiche in polipropilene e lattice naturale di due dimensioni ed elasticità. L'imbottitura della struttura è ottenuta con lastre in poliuretano espanso indeformabile a densità differenziate (tra 30 e 35 kg/m<sup>3</sup>) ed esente da CFC ed in seguito ricoperta con ovatta poliestere e vellutino accoppiato. I cuscini asportabili della seduta sono suddivisi in tre camere orizzontali: la camera centrale è in poliuretano espanso (con densità di 40 kg/m<sup>3</sup>), mentre le due più esterne sono imbottite di piuma. I cuscini asportabili dello schienale sono invece realizzati completamente in piuma. I supporti sono in tubolare d'acciaio verniciato con finitura champagne con piedini in PVC regolabili.

Year of Production: 2019

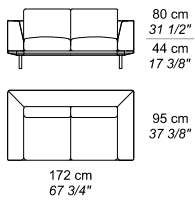

Born from the creativity of Alessandro Dubini, Koi is a contemporary and elegant sofa designed for comfort and sobriety. The linear and timeless structure combines a compact and enveloping seat. The detail of the metal feet is of strong impact and with their particular T shape seems to "contain" the frame, becoming an integral part of it. The result is a perfect example of balance of proportions and harmony: a piece of furniture that can easily find space both in the home nor in the commercial environment.

**Specifications:**

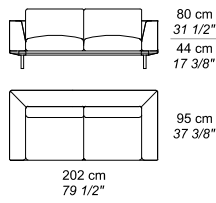

The model is available upholstered in leather or fabric (with a removable cover only for seat and back cushions); the base is available upholstered in fabric or leather. The foot is painted with a colour champagne finish. The table is available with a marble top Dover White. The load-bearing frame is made of naturally seasoned poplar solid wood, with some connecting elements in poplar plywood; dap joints unite the various parts of the frame with securing cylindrical dowels. The seat webbing consists of elastic polypropylene and natural latex belts in two different sizes and elasticity. The frame is padded with non-deformable polyurethane foam slabs with different densities (between 30 and 35 kg / m<sup>3</sup>) and CFC-free and then covered with polyester wadding and bonded plush. The removable seat cushions are divided into three horizontal compartments: the central one is in polyurethane foam (with a density of 40 kg / m<sup>3</sup>), while the upper and lower ones are padded with feather. The removable backrest cushions are instead made completely in feather. The supports are in tubular steel with a champagne colour finish and with adjustable PVC feet.
