TS TABLE COLLECTION

2013

Designed by GamFratesi

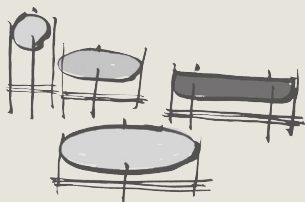

The TS collection consists of the TS Lounge Table, TS Round Console and TS Console.

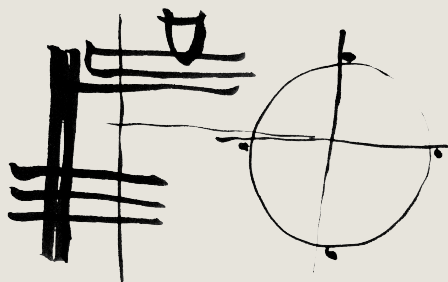

Lounge table and console with new standards

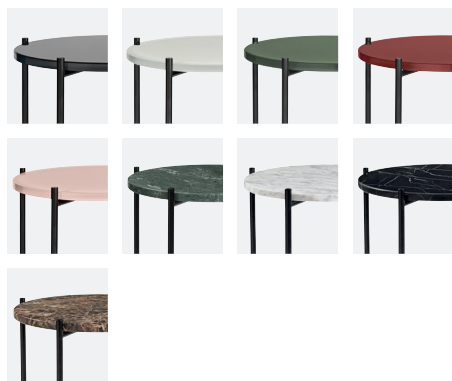

The TS lounge table was designed in 2013 by the Danish-Italian design duo, GamFratesi, as a product for the interior decoration of the prominent restaurant The Standard in Copenhagen. TS is a short for The Standard, and it was not just the name of the table that got its inspiration from the old customs house, but the aesthetics and material choices as well. The contrasting solid marble

table top to the slender metal base, with a characteristic cross that intertwines under the table, has strong references to the building's architecture from 1932, and the materials were found on the site. To further extend its versatility, the TS lounge table has been extended with luxurious table tops in coloured glass and as a console.

Sketches of TS Table by GamFratesi

TS LOUNGE TABLE

Designed by GamFratesi, 2013

* Only available for TS Round Console

GamFratesi

GamFratesi's design takes its creative drive from a fusion of tradition and renewal with an experimental approach to their chosen materials and techniques.

With their diverse traditional background, they draw on the classic Danish furniture and craft tradition as well as the timeless Italian intellectual and conceptual approach. From this cross-cultural partnership they create furniture that reflects tradition, respectfully, while also featuring unique embedded stories, symbols and associations, often expressed in a minimalist idiom.
