SISTEMA ATELIER

ATELIER SYSTEM

L'anta è composta da un profilo in alluminio con frontale in legno che a seconda di come viene posizionato all'interno del profilo crea una gola o maniglia donando un segno grafico alla composizione. La gola può essere posta in orizzontale totalmente o parzialmente rispetto allo sviluppo del mobile, ma anche collocata lungo i lati verticali o addirittura "incorniciare" i quattro lati, permette di personalizzare questa microarchitettura domestica conferendo profondità alla superficie.

The door is composed of an aluminum profile with a wooden front which, depending on how it is positioned it creates a groove or handle donating a graphic sign to the composition.

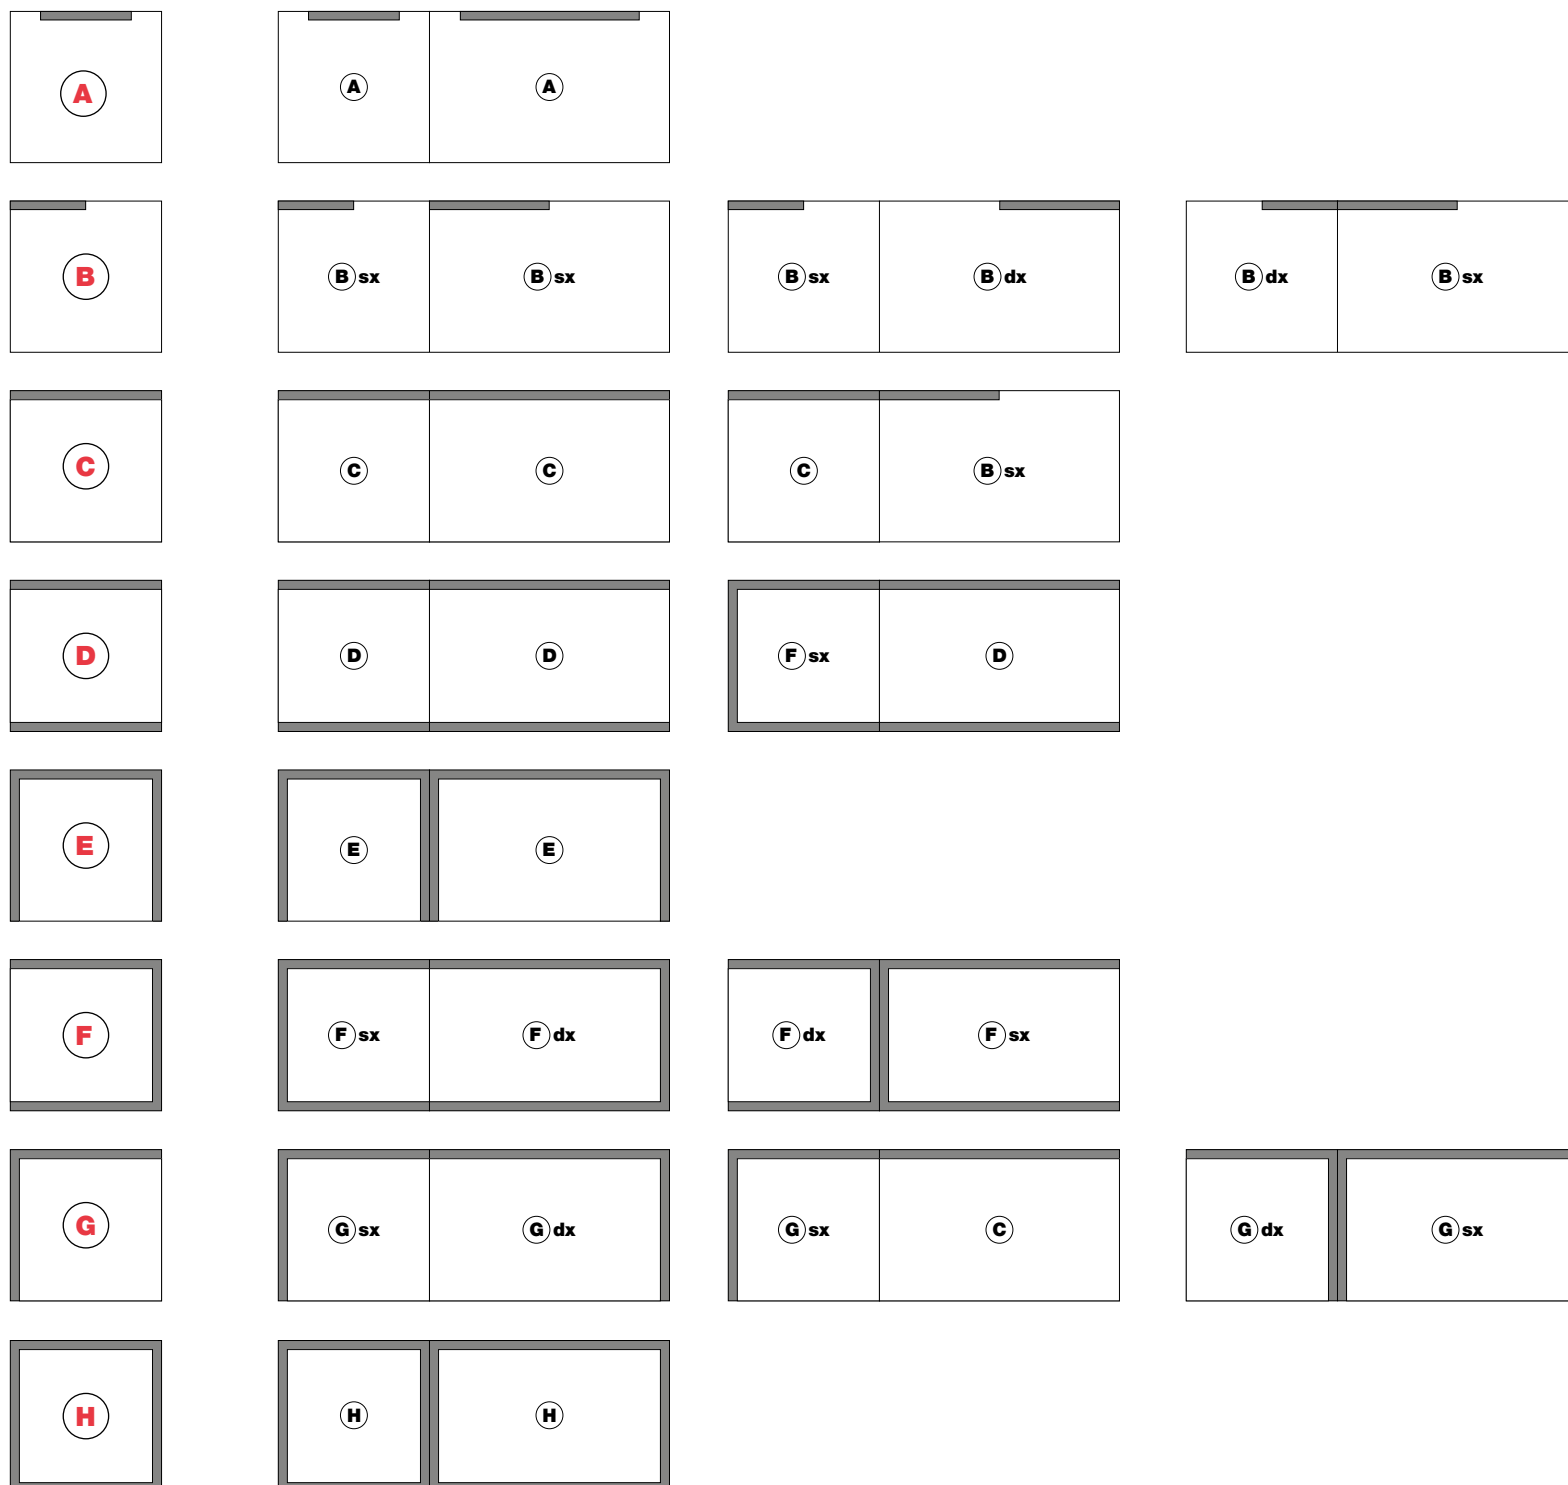

The handle can be placed horizontally, totally or partially, with respect to the rest of the furniture, but also placed along the vertical sides or even "frame" the four sides allowing you to customize a domestic micro-architecture and giving depth to the surface.

È necessario scegliere la finitura dei frontali identificata dai numeri 3 e 4, la tipologia di maniglia identificata dalle lettere A-B-C-D-E-F-G-H e la finitura del telaio in alluminio bronzo-titanio-zirconio-champagne. La struttura è in finitura skin cenere.

It is necessary to choose the finish of the fronts identified by numbers 3 and 4, the type of handle identified by the letters A-B-C-D-E-F-G-H and the finish of the aluminum frame in bronzo-titanio-zirconio-champagne. The structure is in skin cenere.

50	25	45	SIMPAMANI

Porta lavabo dx o sx con 1 anta e 1 ripiano interno, abbinabile solo con lavabo Art. SIMPLOMANI versione A e C.

*Right or left single door sink unit with 1 internal shelf to be combined with Art. SIMPLOMANI in version A and C.*

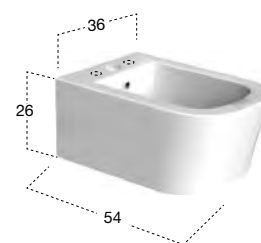

H	P	L	art.	
26	54	36	KOMODO1	Ceramica Lucida / High gloss Ceramic
26	54	36	KOMODO3	Ceramica Satinata / Satin Ceramic

Vaso in ceramica lucida o satinata, sospeso con scarico a parete, completo di sedile avvolgente FLAT con sistema di sganciamento rapido, realizzato in resina termoindurente con chiusura rallentata "soft-close".

*High gloss or satin suspended ceramic water closet with wall drain, complete with seat and cover FLAT made of thermosetting resin, quick release system and soft closing hinges.*

H	P	L	art.	
26	54	36	KOMODO2	Ceramica Lucida / High gloss Ceramic
26	54	36	KOMODO4	Ceramica Satinata / Satin Ceramic

Bidet monoforo in ceramica lucida o satinata, sospeso con scarico a parete.

*High gloss or satin suspended ceramic bidet with wall drainage and single tap hole.*

SISTEMA "LESS\_RING" / "LESS\_RING" FLUSHING SYSTEM

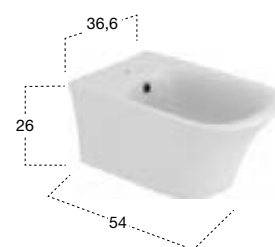

Il vaso in ceramica della collezione Cabo, utilizza il sistema LESS\_RING che oltre a garantire una perfetta pulizia del volume interno e massima capacità di sciacquo, dona all'insieme un'immagine finale gradevole. Il movimento circolare consente di lavare in modo preciso e senza spruzzi tutta la superficie, contrariamente a quanto avveniva con i normali vasi con la brida, per un'igiene del 100%.

*The ceramic water closet, from the Cabo collection, uses the LESS\_RING system that ensures perfect internal cleaning and a maximum ability to rinse. The circular movement allows to wash in a precise manner and without splashing, contrary to what happens with standard water closets with a rim, to assure 100% hygiene.*

H	P	L	art.	
26	54	36,6	CABO1	Ceramica Lucida / High gloss Ceramic
26	54	36,6	CABO3	Ceramica Satinata / Satin Ceramic

Vaso in ceramica lucida o satinata, sospeso con scarico a parete e sistema senza brida, completo di sedile avvolgente FLAT con sistema di sganciamento rapido, realizzato in resina termoindurente con chiusura rallentata "soft-close".

*High gloss or satin suspended ceramic water closet with wall drain and washdown rimless flushing, complete with seat and cover FLAT made of thermosetting resin, quick release system and soft closing hinges.*

H	P	L	art.	
26	54	36,6	CABO2	Ceramica Lucida / High gloss Ceramic
26	54	36,6	CABO4	Ceramica Satinata / Satin Ceramic

Bidet monoforo in ceramica lucida o satinata, sospeso con scarico a parete.

*High gloss or satin suspended ceramic bidet with wall drainage and single tap hole.*

# CABO

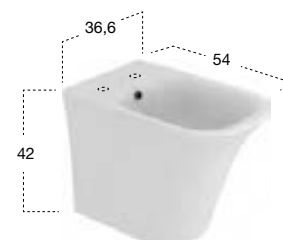

SISTEMA "LESS\_RING" / "LESS\_RING" FLUSHING SYSTEM

H	P	L	art.	
42	54	36,6	CAB021	Ceramica Lucida / High gloss Ceramic
42	54	36,6	CAB023	Ceramica Satinata / Satin Ceramic

Vaso in ceramica lucida o satinata, da terra con scarico a pavimento o a parete e sistema senza brida, completo di sedile avvolgente FLAT con sistema di sganciamento rapido, realizzato in resina termoindurente con chiusura rallentata "soft-close".

*High gloss or satin freestanding ceramic water closet with floor or wall drain and washdown rimless flushing, complete with seat and cover FLAT made of thermosetting resin, quick release system and soft closing hinges.*

H	P	L	art.	
42	54	36,6	CAB022	Ceramica Lucida / High gloss Ceramic

50	8	34	CARTATENSO

Porta carta e idroscopino da incasso in acciaio inox satinato o lucido con doppio sistema di apertura e chiusura acqua e flessibile di 85 cm ad alta pressione.

*Encased hydrobrush cleaner and paper roll holder in satin or polished stainless steel with double opening and closing water system and high pressure flexible hose 85 cm.*

TENSO design GI-RA

Modello e design registrato, brevetto depositato  
*Registered model and design, patent pending*

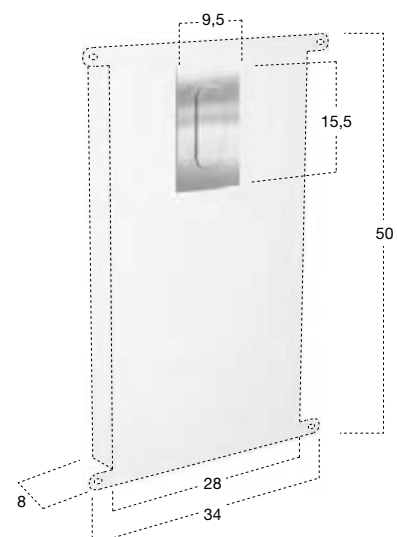

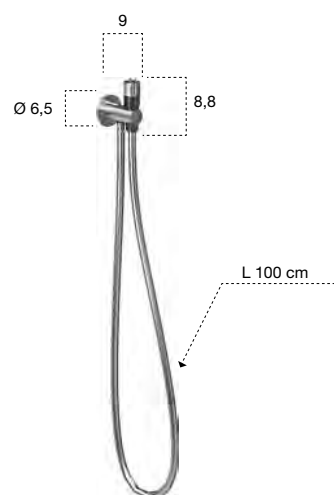

H	P	L	art.
50	8	34	TENSO

Idroscopino da incasso in acciaio inox satinato o lucido con doppio sistema di apertura e chiusura acqua e flessibile 85 cm ad alta pressione.

*Encased hydrobrush cleaner in satin or polished stainless steel with double opening and closing water system and high pressure flexible hose 85 cm.*

H	P	L	art.
8,8	9	6,5	GIRO_SCHIZZO

Idroscopino in acciaio inox satinato AISI 316/L con presa d'acqua e chiusura integrata al supporto a parete, completo di flessibile 100 cm ad alta pressione.

*Wall mounted hydrobrush in satin stainless steel AISI 316/L complete with support and water outlet, high pressure flexible hose 100 cm.*

## CRISTALMOOD

Un nuovo materiale frutto della ricerca antoniolupi, si aggiunge al Flumood e al Quarzomood.

Battezzato Cristalmood per le sue caratteristiche di trasparenza e lucentezza, è una resina di nuova generazione, colorabile, resistente, versatile. Nato per produrre lavabi abbinabili ai più diversi materiali, creando raffinati abbinamenti cromatici, come nel caso dei lavabi freestanding Albume di Carlo Colombo, Cristalmood, date le sue straordinarie caratteristiche, è già stato utilizzato anche in scala più grande per realizzare Reflex, la nuova vasca design AL Studio.

Cristalmood è una resina colorata, trasparente, a finitura lucida, composta da resina poliestere di alta qualità e pigmenti coloranti; ha superato i test anticorrosione (nebbia salina) e può essere pulito con tutti i detergenti più comuni, resistendo anche ad alcool denaturato, acetone, olii, benzene o gasolio.

Grazie alla loro composizione, gli oggetti in Cristalmood hanno un peso inferiore di circa il 30% rispetto a quelli realizzati con i solid surface come ad esempio il nostro Flumood.

## CRISTALMOOD

*A new material, result of the antoniolupi research, is added to Flumood and Quarzomood. Baptized Cristalmood due to its transparency and sheen, a new generation colored resin, resistant and versatile. Created to produce sinks combined with the most diverse materials, achieving refined color combinations, as in the case of Carlo Colombo's freestanding sinks Albume. Cristalmood, given its extraordinary characteristics, has already been used on a larger scale to make Reflex, the new bathtub by AL Studio design.*

*Cristalmood is a colored resin, transparent with a glossy finish, composed of high quality polyester resin and coloring pigments; has passed the anti-corrosion tests (salt spray) and can be cleaned with all the most common detergents, also resisting to rubbing alcohol, acetone, oils, gasoline or diesel fuel.*

*Thanks to the composition, objects made from Cristalmood weigh about 30% less than those made with solid surfaces such as our own Flumood.*

Colonna / Pedestal  
Cristalmood

Art. ALBUME10

+

Art. ALBUME20

H	Ø	L	art.
20,5	48	60	ALBUME10

Lavabo tondo in Cristalmood, disponibile in diversi colori come da nostro campionario, sopraiano o abbinabile con colonna art. ALBUME20 e ALBUME21, completo di piletta con scarico libero e raccordo per sifone.

Round sink in Cristalmood, avialbe in various colors, top mount or to be combined with pedestal art. ALBUME20 and ALBUME21 complete with drain pipe fitting and open plug.

*Oval Cristalmood bathtub available in various colors complete with drain and pressure plug, siphon and flexible hose.  
 Weight: 150 kg.  
 Capacity: 350 L.*

## QUARZOMOOD

Insieme al Flumood, l'innovativo materiale composto per la maggior parte da idrossido di alluminio e resine sintetiche, frutto della ricerca antoniolupi, l'azienda propone dopo due anni di sperimentazioni il Quarzomood che oltre alla grandissima resistenza dovuta all'aggiunta di quarzo, consente nuove cromie. L'azienda ne ha sviluppate tre, denominate Serena, Terra e Seta che permettono ricercati accostamenti dei piani e dei lavabi integrati, sia con le nuove finiture dei mobili, sia con le versioni laccate e uniformi.

Resistentissimo, facile da pulire, ripristinabile agevolmente in caso di graffi, bruciature o dall'usura dell'impiego quotidiano, Quarzomood mantiene inalterate le sue caratteristiche nel tempo e costituisce un altro passo verso quella ricerca della perfezione che caratterizza tutti i prodotti dell'azienda.

*Together with Flumood, the innovative material composed mostly of aluminum hydroxide and synthetic resins a result of the antoniolupi research, the company proposes after two years of experimentation, Quarzomood. The great resistance, due to the addition of quartz, allows for new colors. The company has developed three different colors, Serena, Terra and Seta, which allow refined combinations of integrated surfaces and sinks, both with the new furniture finishes and with the lacquered and uniform versions.*

*Extremely resistant, easy to clean, easily restored in case of scratches, burns or wear and tear of everyday use, Quarzomood maintains its characteristics unchanged over time and represents another step towards the search for perfection that characterizes all the company's products.*

## FLUMOOD

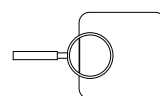

Corian nel 2001, il Cristalplant nel 2004 e poi ancora il Ceramilux... ora il Flumood, un materiale di nuova generazione brevetto e proprietà di antoniolupi. Dalla ricerca dell'azienda è nato Flumood, un nuovo materiale brevettato e di proprietà, ecologico, compatto, non poroso e atossico, con una superficie facilmente pulibile con i comuni detergenti per la pulizia domestica e ripristinabile in caso di graffi o segni derivanti dall'uso quotidiano. Perfetto per l'ambiente bagno Flumood è in grado di associare alla notevole resistenza una presenza estetica di notevole impatto ma anche un'estrema piacevolezza al tatto, che lo fanno preferire sia per la realizzazione di lavabi ma anche per piani d'appoggio di qualsiasi dimensione e forma. Proprio l'aspetto materico è una delle sue caratteristiche vincenti. Può essere infatti proposto sia nella finitura Satin che in quella Texture, caratterizzata da un effetto "raw" simile a quello di una pietra a spacco. Oggi il nuovo materiale viene proposto su alcune nuove collezioni ma la sua diffusione nell'ambito della gamma di proposte è rapida e concreta. A partire da Simplo disegnato da Mario Ferrarini, sia nella versione freestanding che da appoggio, per proseguire con Fusto di Nevio Tellatin ma anche con le proposte, sempre dedicate al mondo del lavabo, Calco e Senso. La versatilità del Flumood permette di realizzare qualsiasi forma, di esplorare nuovi territori, di interpretare esigenze diverse.

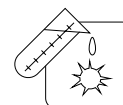

## FLUMOOD

*Corian in 2001, Cristalplant in 2004 and then Ceramilux... now Flumood, a next-generation material and patent owned by antoniolupi. From company research Flumood was born, a new patented and owned material, eco-friendly, compact, non-porous and non-toxic, with an easily cleanable surface and recoverable in case of scratches or marks derived from daily use.*

*Flumood is perfect for the bathroom environment with a considerable resistance and strong aesthetic impact, extremely pleasant to the touch referred for the construction of basins but also for tops of any size and shape. Just the material aspect is one of its winning features. It can be in fact proposed in both the Satin or Texture finish, characterized by a "raw" effect similar to that of a split stone. Today, this new material is offered on new collections but diffused within the proposed range. From Simplo designed by Mario Ferrarini, both the freestanding version and the top mounted sink, followed by Fusto, Nevio Tellatin and sinks, Calco and Senso. The versatility of Flumood allows to create any form, to break new ground, to interpret different needs.*

Piatto doccia rettangolare a misura da appoggio (A), da incasso (B) o da semincasso (\*C) in Moodlight spess. 2 cm, completo di sifone e piletta con scarico libero posizionato al centro, con pendenza costante su tutta la superficie.

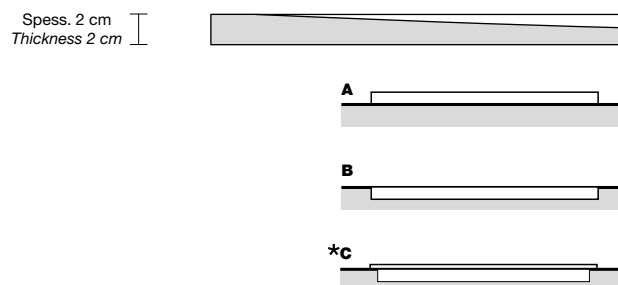

\* N.B. Lavorazione su richiesta.

*Rectangular top mount (A), encased (B) or semi encased (\*C) shower tray in Moodlight 2 cm thick, complete with siphon and open centered drain, with a constant slope across the surface.*

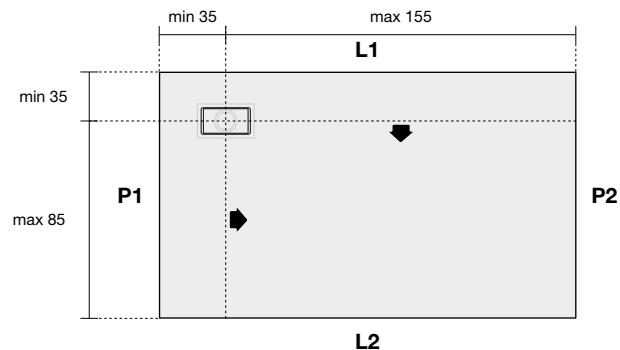

\* P.S. Manufacturing upon request.

\*\* N.B. Su richiesta è possibile inserire un secondo scarico completo di piletta sifonata.  
P.S. Upon request it is possible to have a second drain complete with trap and plug.

Per personalizzazioni diverse da quanto indicato si prega di consultare l'azienda / *For customization other than that indicated please consult the company*

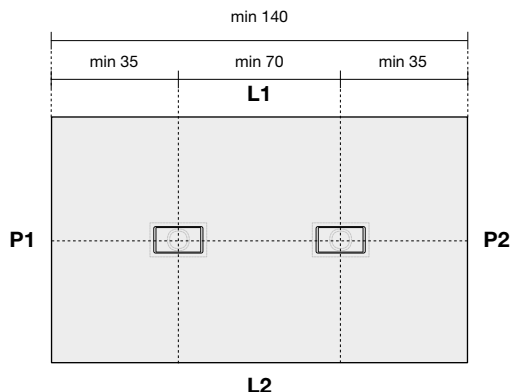

**POSIZIONE SCARICO VARIABILE A RICHIESTA**

La larghezza massima del piatto doccia è di L 220 cm, considerando che la massima estensione di pendenza dal centro piletta è di L 155 cm, è possibile posizionare lo scarico decentrato dove necessita, rispettando le misure minime e massime riportate nello schema.

**DRAIN POSITION VARIABLE ON REQUEST**

*The maximum width of the shower tray is L 220 cm, considering the maximum slope from the center of the drain is L 155 cm, so the drain can be positioned where necessary, considering the minimum and maximum measurements reported in the diagram.*

**POSIZIONE DOPPIO SCARICO VARIABILE A RICHIESTA**

Rispettando le misure minime in profondità (P1/P2) min 35 cm riportate nello schema precedente, è possibile posizionare in larghezza (L1/L2) sullo stesso asse un doppio scarico su un L min 140 cm.

**VARIABLE POSITION OF DOUBLE DRAIN UPON REQUEST**

*It is possible to include a second drain on a minimum L 140 cm, considering the minimum measurements in depth P1/P2 min 35 cm shown in the diagram and in length L1/L2 along the same axis.*

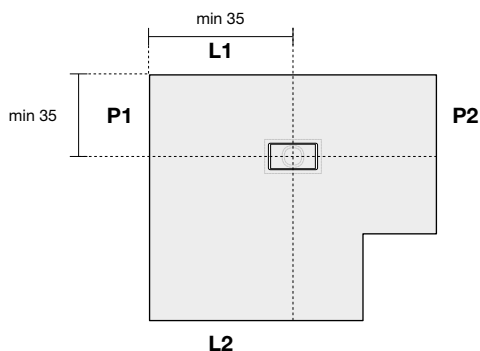

**PER OGNI PERSONALIZZAZIONE È NECESSARIO FORNIRE LA DIMA O UN DISEGNO DETTAGLIATO / FOR ANY CUSTOMIZATION YOU MUST PROVIDE THE COMPANY A TEMPLATE OR A DETAILED DRAWING:**

È possibile realizzare fuori squadra, tagli, sagome su disegno (file DXF o DWG) o su dima.

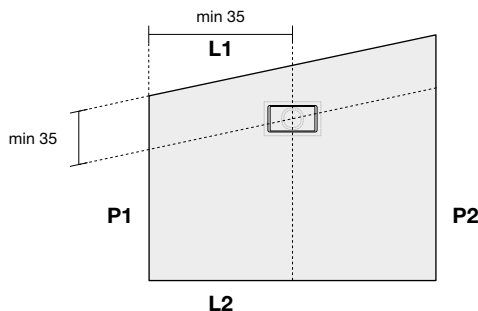

*It is possible to produce out of square, cuts, shapes with a drawing (file in DXF or DWG) or with template.*

ESEMPI DI PERSONALIZZAZIONI / EXAMPLE OF CUSTOMIZATION:

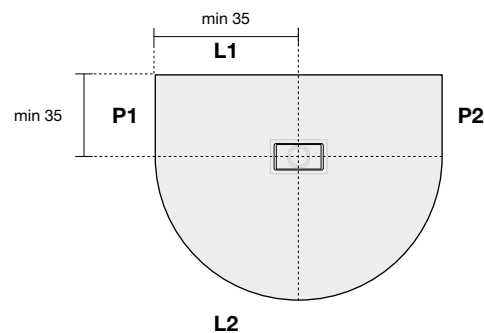

SAGOMA QUADRATA / SQUARE SHAPE

TAGLIO OBLIQUO / OBLIQUE CUTTING

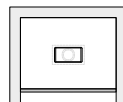

SAGOMA CURVA / CURVED TEMPLATE

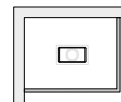

È possibile realizzare lavorazioni personalizzate sui lati del piatto quali, fresature o bordi rialzati.

COLLAGE3314C  
L 54 H 75 P 5,4

Il fil rouge che lega l'arte al design è ormai un segno distintivo del lavoro che antoniolupi sta sviluppando al suo interno.

Più che parlare di contaminazione, vorremmo fare riferimento a due fasi esperienziali diverse che si fondono, trovando un obiettivo comune: una esperienza univoca del bello che possa entrare a far parte del quotidiano di ognuno di noi.

Luca Galofaro, Architetto e Professore, da tempo ha concentrato una parte della sua riflessione sulle relazioni esistenti fra rappresentazione, architettura urbana ed immagine.

Attualmente una ampia sezione dello show room Pietra e Fuoco della sede di Stabbia di antoniolupi è dedicata ad una Mostra/Collezione di Disegni di Architettura curata da Galofaro stesso: un passo di crescita aziendale di rilievo. Adesso Galofaro 'contamina' con la propria visione alcuni prodotti della antoniolupi e stringe ancora ancora di più questa collaborazione nata circa un anno fa con Andrea Lupi: alcuni dei Disegni di Architettura facenti parte della Mostra sono stati infatti selezionati ed applicati agli specchi della linea antoniolupi

L'idea di trasformare alcuni di questi lavori in oggetti di arredo è stata una conseguenza naturale delle riflessioni condivise fra Galofaro ed Andrea Lupi.

Si è trattato di trasformare un'immagine usata per pensare architettura trasferendola su un oggetto d'uso quotidiano, andando a costruire un ponte tra l'immaginazione che domina l'arte e la vita che è solitamente dominata dalla funzione che l'oggetto ha.

*The common thread between art and design is now a distinctive sign of antoniolupi's work.*

*More than fusion, we would refer to two different experiences mixed together to achieve a common goal: an univocal experience of beauty that becomes part of our daily life.*

*Luca Galofaro, Architect and Teacher, has focused his attention on relationships between representation, urban architecture and image.*

*An area of antoniolupi showroom La Pietra e il Fuoco in Stabbia is currently hosting an Exhibition/Architecture Drawing Collection curated by Galofaro himself: an important step forward in the company's growth strategy.*

*Now Galofaro 'influences' with his vision some antoniolupi products and the collaboration between him and Andrea Lupi is becoming even closer: some Architecture Drawings of the exhibition have been chosen to be used on antoniolupi mirrors collection.*

*Transforming some of these works in real furniture objects was a natural consequence of the reflection shared by Galofaro and Andrea Lupi.*

*The idea consists of transferring an image used to think of architecture to an item of everyday life, building a bridge between imagination, which dominates art, and life, normally dominated by the function of the object.*

La tecnica del collage si basa su una sovrapposizione di frammenti. L'immagine nasce come stratificazione di immagini della memoria. Gli specchi sono realizzati attraverso una stratificazione di lastre in vetro stampate e creano dei collage tridimensionali in cui l'ultimo strato specchiato definisce una relazione con l'osservatore che entra nell'immagine.

COLLAGE307  
L 54 H 75 P 5,4

*The collage technique is based on overlapping fragments. The image comes from the stratification of images of memory. Mirrors are made overlapping printed glass plates, creating tridimensional collages. The last mirrored layer established a relationship with the observer, who becomes part of the image itself.*

A photograph of a modern building's exterior at dusk. The sky is a mix of blue and pink. The building's facade is dark, and the name 'antoniolupi' is written in large, bold, lowercase letters that are illuminated from within, creating a bright white glow. To the left of the building, there are four small trees in white, rounded planters. The ground in front of the building is dark and appears to be a paved plaza.
