ARMCHAIRS

Nipa Doshi and Jonathan Levien

Description

Dedicated to relaxation, this revolving chair is composed of two conical glass fibre shell: a seat that joins the base and a backrest. The headrest is a curved piece of oak wood, padded on the inside that stems outwardly from the backrest. It is a chair that stands out for the balanced composition of the various elements, materials and leather upholstery - with the option of merino wool for the headrest.

Technical drawings

B&B Italia reserves the right to make technological and aesthetic improvements to its models, including changes to the sizes and materials, without notice. The technical drawings do not define the details of the product. The measurements shown are indicative and may undergo changes. In particular, the dimensions relevant to the padded parts are subject to usage tolerances over time caused by the normal adjustment of the padding. For the specific information, please contact the dealer closest to you.
