ARMCHAIRS

Naoto Fukasawa

Description

Naoto Fukasawa continues his research on upside-down truncated cone shaped seats, and, for this project addresses B&B Italia's need to explore the seating with armrests. Two forms are ergonomically designed and developed to obtain a relaxing easy armchair with a high back and headrest, and a conversation armchair with a low back. Both armchairs have a swivel base and visible metal hinge in the back part that, as with the iconic Papilio series, allow to remove the cover, available in fabric or leather. To these seats are added a third form, an ottoman on top of which a tray element can be supported, allowing complementary use as a small table.

Technical information

Internal frame

tubular steel and steel profiles

Internal frame upholstery

Bayfit® flexible cold shaped polyurethane foam, polyester fibre cover

Swivel base-frame (HA80A-HA80B)

steel laminate and aluminium

Base-frame (HA160-HA61P)

steel laminate

Headrest (HA_P)

shaped polyurethane, polyester fibre, cotton cover, counterweight in anodized aluminium and steel

Tray (HA65V)

solid wood, veneered wood fibre panel

Ferrules

thermoplastic material

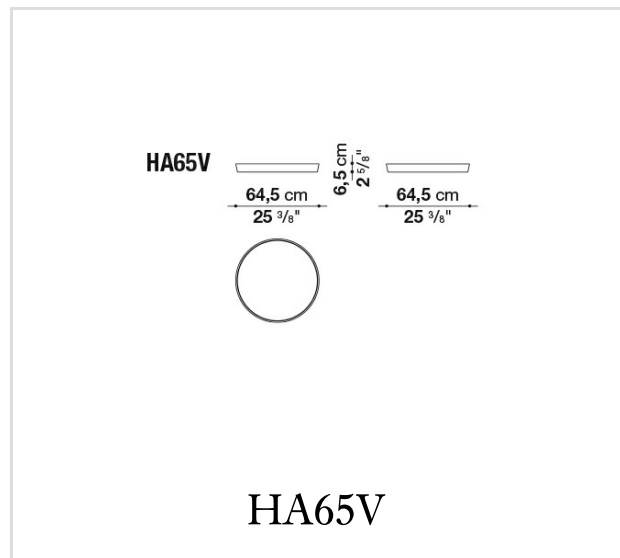

Cover

fabric or leather

The product is conformable at

EN 16139 strength, durability and safety : requirements for non-domestic seating

Technical drawings

B&B Italia reserves the right to make technological and aesthetic improvements to its models, including changes to the sizes and materials, without notice. The technical drawings do not define the details of the product. The measurements shown are indicative and may undergo changes. In particular, the dimensions relevant to the padded parts are subject to usage tolerances over time caused by the normal adjustment of the padding. For the specific information, please contact the dealer closest to you.
