
Fat-Sofa Outdoor

SOFAS

Patricia Urquiola

Description

The rounded, soft and sinuous shapes of the Fat-Sofa seating system are the base for the new outdoor version, characterized by a brand new interlacing design. Its fully padded seat is accompanied by a metal frame backrest that supports the original weave, creating a special play of fullness and emptiness. The large weave pattern, made of tortora coloured twisted polyethylene fibres, makes the design unique, respecting the designer's idea of lightness, transparency and puts the furnishings in an open "dialogue" with the surrounding environment. Fat-Sofa Outdoor consists of six types, ranging from the linear sofa to a large relax island, from two height variants of the armchair to a range of different sizes of ottomans. The new collection of fabrics, available also on the large back cushions, creates evocative colour and visual combinations.

Technical information

Структура:
алюминий

Отделка структуры:
окраска полиэстеровым порошком

Плетение:
полиэтилен

Внутренняя рама (FA150-FA230):
трубчатые рамы и профили из стали

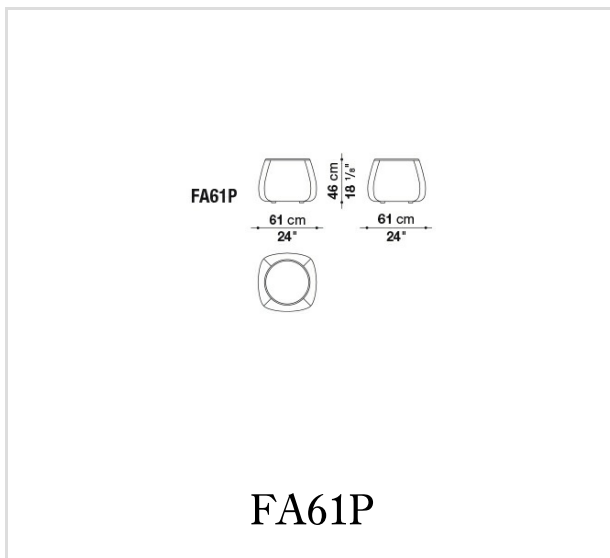

Набивка внутренней рамы (FA150-FA230):
эластичная упругая полиуретановая пена Bayfit® (Bayer®),
пенополистирол, фигурный полиуретан различной плотности,
полиэфирного волокна с водоотталкивающей леченая

Набивка (FA61P-FA76P):
эластичная упругая полиуретановая пена Bayfit® (Bayer®),
пенополистирол, фигурный полиуретан, полиэфирного волокна с
водоотталкивающей леченая

Подушки спинки:
полиэфирное волокно, полиэфирного волокна с водоотталкивающей
леченая

Дно:
ткань 100% полиамид с покрытием из ПВХ, прокладка из ПВХ черного
цвета

Technical drawings

B&B Italia reserves the right to make technological and aesthetic improvements to its models, including changes to the sizes and materials, without notice. The technical drawings do not define the details of the product. The measurements shown are indicative and may undergo changes. In particular, the dimensions relevant to the padded parts are subject to usage tolerances over time caused by the normal adjustment of the padding.
